Pre-Mock Interview Questionnaire

University Credibility and Pre CAS Preparation

Type in the shaded boxes. Save your completed PDF before returning it to your WSA counsellor.

Full name	
University	
Full course title	
Course start date	
Interview date, if known	
Interview time and time zone, if known	
Interview purpose	

Purpose of the interview

The university checks whether you understand your study choices, course, finances and future plans. Confirm the actual purpose from the invitation: credibility before CAS, credibility linked to a possible scholarship, or a combined assessment. Use PMIQ 06 for any scholarship selection elements and PMIQ 07 for CAS Shield instructions where applicable. This university assessment is separate from a UKVI interview. Passing does not by itself confirm a scholarship or CAS.

How to prepare

Before your mock, use the podcasts below. Check the invitation, format, platform, date, time zone and deadline. Review your offer, official course information, submitted application and financial evidence. Record your research sources. Test your camera, microphone and connection. Practise unexpected follow up questions independently without scripts or prompting. Listen, answer directly and ask for clarification if needed. Use a clear point and genuine example, then stop. Look towards the camera naturally and communicate respectfully. Actual questions may differ.

Interview questions

01. Tell us about your education and relevant work experience. Explain your own responsibilities and how they prepared you for this course. Check that dates, qualifications and duties match your submitted documents.

02. Why the UK rather than your home country or another destination? Compare genuine study options, course content, teaching, practical opportunities, duration and costs. Explain the academic benefits for your own goals rather than relying on general claims about quality or affordability.

03. Why did you choose this university and course? Give one specific strength of the department and one feature of the course, such as a module or practical learning opportunity. Explain how these support your goals and name the university sources you used.

04. What is your exact course title, campus, intake, start date and duration? Explain the course structure and any conditions in your offer. Check these details against the official programme and your documents.

05. Explain two modules in your own words: what would you learn, how would you be assessed and how would you apply it? Use official descriptions rather than guessing from titles. For research courses, explain the project, methods, supervision and training instead.

06. Why this course at this stage? Identify the skills you need and a real problem they would help you address. Explain how it builds on previous study or work, including any gap, change of subject or alternative qualification you considered.

07. What role do you intend to pursue after the course? Explain its responsibilities, likely employers or sector and realistic next steps. Link two course skills to that work. If planning a business or organisation, explain how you would begin. Distinguish plans from confirmed opportunities.

08. What are your total tuition fees, confirmed discounts, payments made and balance due? Explain payment deadlines and the evidence supporting the figures. Treat any proposed scholarship as unconfirmed until written confirmation.

09. Who is funding your fees and living costs? Explain the source and availability of funds, any sponsor's relationship to you, regular family support and significant deposits. What evidence supports this? Raise unexplained transactions or discrepancies with your counsellor.

10. Where do you plan to live? Explain the location, rent, deposit, bills and journey to campus. Identify the source of your figures and distinguish researched options from a confirmed booking.

11. What is your realistic budget for accommodation, food, transport and other essentials? Explain how you calculated it, who will pay and how you would cover unexpected expenses or a funding shortfall.

12. How will you fund study without relying on UK employment? What work conditions have you checked for your intended visa and course, using current official information? Explain how you would balance permitted work with study, if relevant.

13. What is your overseas study and immigration history, including refusals? Explain accurately and consistently with your documents. Have you received any request for further evidence or notice of a change to your offer? What action have you taken through your counsellor?

14. Will any family members accompany you? Explain your actual plans, their funding and the eligibility requirements you have checked. Distinguish confirmed arrangements from intentions.

15. What do you understand about attendance, academic engagement and your responsibilities as an international student? Explain how you would manage deadlines, seek support and report a change in circumstances.

16. Where is your university ranked, if listed? Give the source and year. You may also mention a relevant subject or course ranking. Explain one limitation and how the ranking informed your choice alongside course fit.

17. Which universities in your home country did you genuinely consider for comparable study? Name the institutions and programmes, explain the similarities and differences, and why your chosen university better meets your academic or career objectives.

18. How would you manage your physical health, mental wellbeing and study workload while studying? Describe practical habits, sources of support and what you would do if you needed help. You do not need to disclose private medical information.

19. Do you think people will travel more or less in the future? Give a balanced answer based on two relevant factors, such as technology, costs, climate, work or global events. Explain your reasoning rather than trying to guess a “correct” answer.

20. How would you respond if the interviewer challenged the consistency of your study plans or asked for a fact you could not remember? Explain how to be accurate and candid.

Podcasts to use before your mock interview

Open the links in the WSA Student Support Library. Listen and read or download the summaries before completing your notes.

WSA 026 UK University Credibility Interview

https://www.worldstudentadvisors.com/student-support-library/uk-university-credibility-interview

Prepare to explain your university, course and career choices clearly. Follow your own university's interview invitation and instructions.

WSA 023 CAS and UKVI Credibility Interview

https://www.worldstudentadvisors.com/student-support-library/cas-and-ukvi-credibility-interview

Practise explaining your study plans, background and finances. Keep the university credibility assessment, any CAS decision and a later UKVI interview distinct.

WSA 025 UK Student Visa Essentials

https://www.worldstudentadvisors.com/student-support-library/uk-student-visa-essentials

Review the visa stage and the responsibilities you need to understand. Check current requirements for your own circumstances with your counsellor.

Podcasts for accommodation and funding

Use these resources to prepare practical answers based on your actual budget and accommodation research. Note any questions for your counsellor.

WSA 032 Student Accommodation

https://www.worldstudentadvisors.com/student-support-library/student-accommodation

Research housing options, rent, deposits, bills and travel to campus. Explain what is confirmed and what remains to be arranged.

WSA 002 Cost of Studying Abroad

https://www.worldstudentadvisors.com/student-support-library/cost-of-studying-abroad

Prepare accurate tuition and living cost figures, including any unpaid balance. Explain who is funding you and how the money is available.

Use genuine plans and accurate figures. Expect follow up questions such as “Why?”, “Give an example” and “Explain that more simply”. Explain uncertainties honestly and raise document errors with your counsellor. A completed PMIQ does not confirm document readiness. Follow the university's actual assessment instructions.

Before your mock, check that you can explain your course, career plans, tuition balance, funding evidence, accommodation and living budget without reading a script. Make sure the details match your application and supporting documents.
